D. MAJOR PROGRAM INFORMATION

Whether or not the field of distinction is the same as the major, you must have an accurate Major Program on file in the Arts and Sciences Honors Office. Please indicate how your major is being listed. (Check 1, 2, or 3 below.)

_____ 1. I have already submitted (and had approved) an Honors Contract which includes a complete listing of the courses in my major.

_____ 2. I am submitting the attached MAJOR PROGRAM FORM as a complete listing of the courses in my major.

_____ 3. I have an approved Personalized Study Program which includes a complete list of the courses in my interdisciplinary major.

Any of the options stated above for filing the major may be used. However, the major must be, at minimum, a full 30-hour major excluding any credit hours received for the research and thesis project (783H or 4999H). If the major contains fewer than 30 hours, the project advisor must explain, in an attached statement, in what alternate way the student has achieved breadth in the major in order to warrant graduation with honors research distinction in [the major field].

NOTE: If you are applying to graduate with honors research distinction in [the major field], and your major department offers an honors version of the major, you must complete that honors major in order to graduate with honors research distinction in [the major field]. Please consult early with the faculty honors advisor about the major program.

E. ORAL EXAMINATION PAPERWORK

The oral examination paperwork is sent to your project advisor the term you have indicated you intend to complete the oral exam. You may defend your thesis earlier than your graduation quarter, but you must notify the Arts and Sciences Honors Office (292-5104) so that the paperwork can be sent in the appropriate term.
F. DESCRIPTION OF THE HONORS THESIS PROJECT

Attach a brief description or outline of your project (maximum of 500 words), including an indication of the significance of your inquiry and its relation to larger issues in the discipline.
